INTRODUCTION

I am currently enrolled in a B.Tech program specializing in Information Technology. Throughout my academic journey, I have consistently demonstrated a strong aptitude for subjects related to computer science, programming, and information systems. My coursework includes a blend of theoretical knowledge and practical skills, covering areas such as algorithms, database management, software engineering, and networking.

- Proficient in programming languages such as Python, Java, and C++
- Skilled in web development technologies including HTML, CSS, and JavaScript
- Familiar with software development methodologies and tools
- Knowledgeable in database management systems (DBMS) and SQL
